

# Want to Makeover Your Finances? You Can Begin Today!

You can improve your future (often very quickly) when you begin replacing choices that don't lead to success with ones that do. In other words, you can't keep doing the same things that lead to failure and expect good results (at least good on a consistent basis).

If you decide to become financially secure, then you must be intentional about developing a plan and you must begin TODAY! Here is what you need to do...

**Step One:** ASAP - save \$1,000 - \$2500 in your "Beginner Emergency Fund".  
(*\$500 if annual income is less than \$20k*)

**Step Two:** Pay off your debt (except your home), and do it quickly!

**Step Three:** Build up your Emergency Fund to 3-6 months of living expenses in savings. Sound impossible? It's not! I'll show you how.

**Step Four:** Invest 15% of your household income into tax-deferred and tax-exempt savings. And do it without getting bogged down trying to understand the endless alphabet-soup of IRAs, Roth IRAs, 401(k)s, 403(b)s, TSPs, TRSs etc.

**Step Five:** Fund your children's college tuition. I'll help you navigate the maze of educational savings plans (ESAs, 529s, etc) and which is right for you

**Step Six:** Pay off your home early (Yes, within the next 10 years or less!)

**Step Seven:** Build Wealth, Give and Change Someone's Life!  
(Mutual Funds/Real Estate/etc.)
